

Thermoil will

- Almost eliminate battery explosions,
- Save you money,
- Reduce lead pollution into the environment,
- Increase the life of your batteries in adverse conditions,
- Reduce the need to add water to the batteries,
- Stop the accumulation of acid on top of the battery which causes self discharge,
- Stop under bonnet and terminal corrosion due to battery acid,

Thermoil is 100% recyclable and guaranteed not to harm your batteries when correctly used.

Call us any time. We will ship within 24 hours by your preferred carrier.
